

CIAL | Customer Change Request Form

CIAL values your facility's privacy, clear testing directives, and good documentation practices.

The [Customer Change Request](#) form reflects any updates or changes that you as the customer would like CIAL to follow. The document demonstrates the update and can be tracked for future records.

The *Customer Change Request* form can reflect multiple changes, such as:

- Discontinue tests and/or time points
- Update acceptance criteria
- Change an active report name (ie: Lidocaine → Lidocaine HCl)

Once completed return to lab@compounderslab.com.
